

Title: MCI Incident Command & RTF Groups

Presenter: Dr. Brooke M. Moungey, MD, FACEP

	Yes	No
This educational session was presented without commercial bias or influence.		

	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree
This educational session was valuable for my education as an EMS provider.					

	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree
The presenter demonstrated an appropriate level of expertise regarding the content of this educational session:					

If you evaluated the above elements of the course as anything other than “Strongly Agree”, please include suggestions you have for improvement of those elements here:

What is one thing you learned from today's educational session?

What other continuing education or topics would you like Dr. Moungey to develop and present?

Testing questions for online or distance learning requirements:

1) The Incident Command post and EMS Staging Area (containing the triage and colored zones) should all be located in what zone (hot, warm, or cold)?

2) True or False: When there are a limited number of medical providers on scene, the team should first ensure that life-saving interventions for all yellow and red zone patients are completed before providers are utilized for a rescue task force (RTF) group to extricate additional patients.
